SENSORS, INC. - DECLARATION of COMPLIANCE to the EC Directive on the Reduction of Harmful Substances (RoHS)

Sensors, Inc. hereby declares that new products placed in the European Community market (specific compliant Part Numbers for specific customers are available to that customer upon request) and by the Company and its subsidiaries after July 22, 2017 are “RoHS Compliant” and are compliant with the EC Directive 2011/65/EU OF THE EUROPEAN PARLIAMENT AND OF THE COUNCIL of 8 June 2011 on the restriction of the use of certain hazardous substances in electrical and electronic equipment (commonly known as the EU RoHS Directive).

The RoHS Directive restricts the use of certain substance including lead, mercury, cadmium, hexavalent chromium and certain halogenated flame retardants such as PBB and PBDE in electrical and electronic equipment. RoHS compliance means that where the new product falls under the scope of this EU RoHS Directive, each homogenous material in the product complies within the regulated maximum concentration by weight of each of the following ten restricted substances:

- Lead, Pb (0.1%)
- Mercury, Hg (0.1%)
- Cadmium, Cd (0.01%)
- Hexavalent chromium, Cr VI (0.1%)
- Polybrominated biphenyls, PBB (0.1%)
- Polybrominated diphenyl ethers, PBDE (0.1%)

The compliance of our products with RoHS is affected through:

- Strict control of materials and finishes used in our products
- Periodic audits of our suppliers to ensure compliance
- Periodic analysis, on an as-needed basis, of our products.
- The RoHS status of our products is listed on data sheets and is available upon request.

This declaration represents Sensors, Inc.’s knowledge and belief which, in part, is based upon the reliance of information shared and or provided by third party suppliers to the Company. Further details about Sensors, Inc.’s RoHS compliance program are available upon request.

Signed: 
Date: June 2017
